Career Objective:

Full-stack engineer with 3+ years of experience building scalable web applications and leading development teams. Seeking to bring my expertise in React, Next.js, Nest.js, cloud technologies, and eCommerce platforms like Shopify to organizations looking to drive innovative SaaS solutions and optimize development processes.

Professional Experience:

Full-Stack Engineer | Genesia Technologies Limited, Abuja

Sept 2022 – Present

- Developed and maintained web applications using React, Next.js, Nest.js, and MongoDB.
- Designed and implemented RESTful APIs and optimized backend architecture for scalability.
- Led Agile development teams, increasing team velocity by 23% through improved workflows.
- Built and deployed CI/CD pipelines to streamline deployment processes and improve code quality.
- Integrated Shopify APIs to build and customize eCommerce solutions for clients.
- Utilized AWS for cloud deployment and infrastructure management, enhancing system reliability.
- Collaborated with UX/UI teams to translate designs into responsive, high-performance web applications.

Software Developer | Quench Beverages Limited

Feb 2020 – June 2023

- Built frontend components and pages with React, ensuring alignment with UI/UX principles.
- Managed version control workflows using Git and participated in code reviews.
- Developed and maintained Shopify-based eCommerce solutions, implementing custom themes and plugins.
- Enhanced performance through code optimization, reducing load times by 13%.
- Worked closely with cross-functional teams to deliver SaaS solutions.

Education:

PGD In Computer Science | Gombe State University | 2024

Certifications:

Qwasar Silicon Valley | Software Engineer | 2023

Ping And Bing Co | AWS Certified Solutions Architect | 2022

Skills:

- Frontend: React, Next.js, HTML5, CSS (Tailwind), JavaScript
- Backend: Nest.js, MongoDB, RESTful APIs
- DevOps: CI/CD, AWS
- eCommerce: Shopify, Shopify API, Custom Theme Development, Payment Gateway Integration
- Tools: Git, Agile Methodologies
- Other: UI/UX Implementation, Problem Solving, Team Leadership

Projects:

- **YouTube Video Downloader:** Developed an open-source software that allows users to download YouTube videos seamlessly. Utilized technologies such as React, Nest.js, and MongoDB to create a user-friendly interface with reliable download functionality.
- **Dain Mobile App:** Created a mobile app that users can download and install on their phones. Leveraged React Native for cross-platform compatibility and integrated backend services using Nest.js and MongoDB.
- **E-commerce Storefront:** Built a fully functional eCommerce store using Shopify, integrating custom themes, product filtering, and payment processing.
